

Clark Regional Wastewater District- Safety Improvements

Architect/Role: David Commeree, Partner-in-Charge
 Client: Robin Krause, Capital Projects Manager
 Address: 8000 NE 52nd Ct., Vancouver, WA 98668
 Project Type: Roof Snow-Guard Study and Bid Documents
 Construction Cost: TBD
 Project Area: Existing Facility
 General Contractor: TBD

Project Description

Services were requested to research the feasibility of installing snow guard devices to the existing roofs at the District Operations Center Buildings. Field investigation and research of original construction documents as well as review of several types of snow guards was conducted.

Upon review of the feasibility summary, the District decided to pursue services to assist with preparation of bid documents to solicit pricing and bidder design installation quotes.
